

Mind Track: A Mental Health Website for Students

- **Team Name:** Neuroninijas
- **Team Members:** Vidya Jaiswal
Tanima Sadhu
Urmi Mishra
- **Hackathon:** Hack Synthesis 2.0
- **Theme:** Open Innovation

Problem Statement:

- Many students face mental health problems like stress, anxiety, and sadness, but they don't have a simple way to check in with their feelings every day.
- Students feel shy or scared to share emotions
- No easy and private tool to track feelings
- Current apps are confusing or not made for students

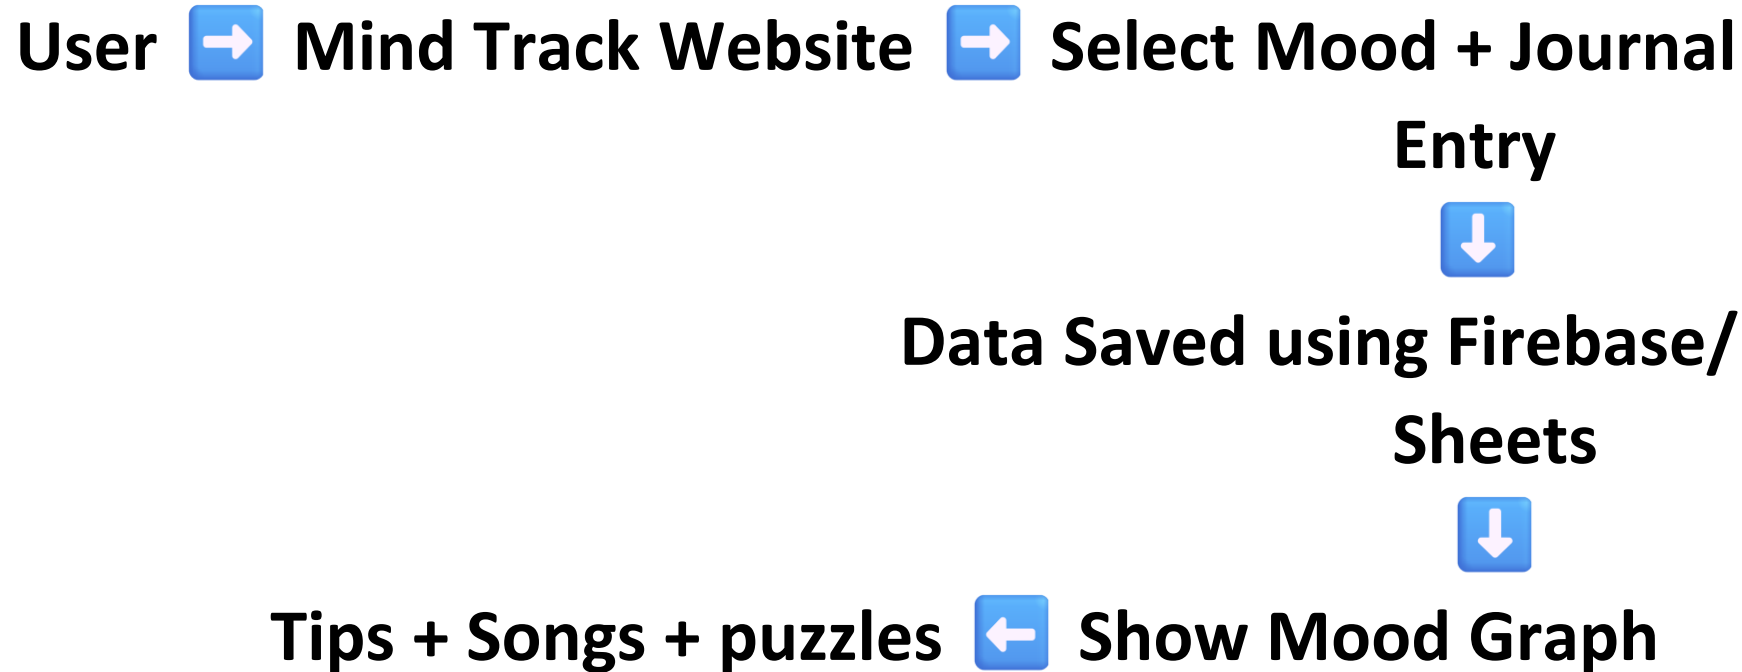

Our Solution- Mind Track

- ✓ A simple and private website made for students to:
- ✓ Choose an emoji daily to show how they feel
😄 😐 😞 😭 😡
- ✓ Write a short journal to express thoughts freely
- ✓ See mood history through graphs
- ✓ Get motivational quotes, songs, and helpful tips based on mood
- ✓ Solve small puzzles to feel better
- ✓ Find useful links for mental health help

How It Works

Simple System Flow:
